UPG MAT Product Series

Series	Application	Characteristics:	
1 Series General Smooth Paper series	• Plain paper, • Printed paper, • OPP laminated, • Labels , • Food package	• Ideal for fine to small and medium-scale motifs • High gloss • Good coverage • Outstanding adhesive	
6 Series General plastic series	• Plain paper, • Printed Paper, • coated surface, • Plastic Labels, • Some UV varnishes	• Ideal for fine to small and medium-scale motifs • High gloss • Outstanding coverage • Excellent adhesive	
9 Series Excellent Plastic Series	Almost plastic materials in the cosmetics product • PE bottles, • Powder compacts etc. • Cosmetics tubes with UV-hardened system.	• Delicate motifs optimally • Excellent edge definition • No edge dust • Excellent gloss • Very high resistance to alcohol and chemical content • Good abrasion and scratch resistance	
T Series Rough Paper Series	• Folding boxes, • Various stickers, • For applications on untreated • Rough paper • Card-boards	• Ideal for fine to large-scale motifs • Very good gloss • High abrasion resistance • Good coverage	
M4 Series Synthetic Leather Series	• PVC-based synthetic leather book covers, • Certificate book, • PVC folders & sleeves, • Pocket diary covers.	• Edge-defined on large-scale • Printed designs on book cover materials with smooth surfaces • Very high gloss • Good coverage , on coarse grained synthetic leather	
CB Series Textured paper/Leather Series	• Plain Paper, • Uncoatd paper, • Rough paper, • Embossed paper, • Textured Leather. • Luxury gift packing.	• Ideal on large-scale motifs • Edge-defined on large-scale • Printed designs on book cover materials with smooth surfaces • Very high gloss • Good coverage , on coarse grained synthetic leather materials	
BF Series Electric Panel Series(Transfer foil)	• Standard formulation for almost all commonly used plastic • Materials in panel of electric appliance. • Suitable plastics like PET,PETG,PVC,AS,ABS,PS,PE	• Very high gloss • Good coverage • High abrasion resistance • Very high resistance to alcohol and chemical content	

UPG MAT Product Series

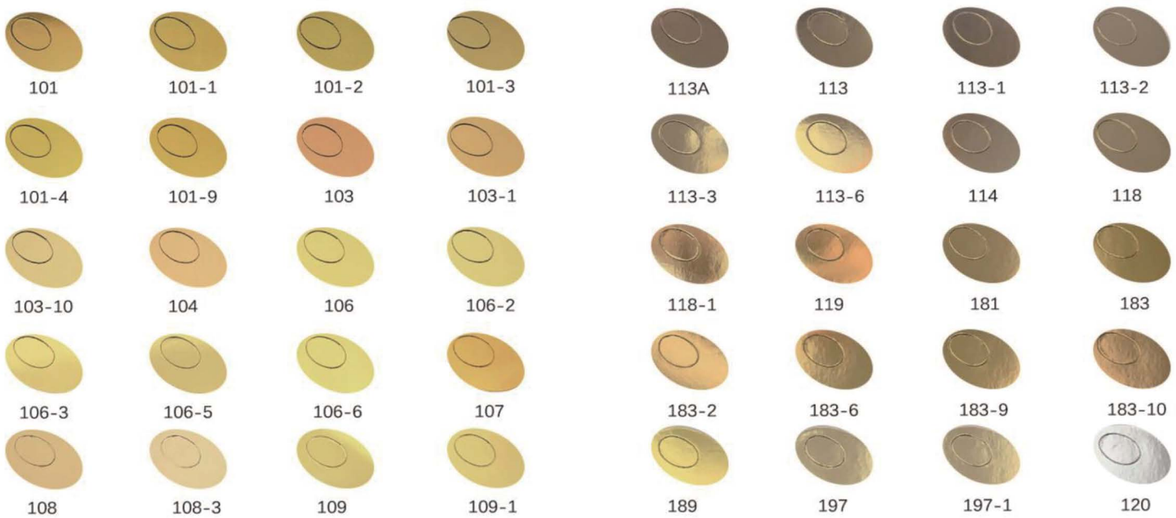

Series	Application	Characteristics:	
FT Series Full Transfer Printing Series	• Folding cigarette • Adhesive labels, • Food packing	• Transfer Printing ideal on large-scale motifs • Printable after hot-stamping foil • High gloss Outstanding adhesive	
TP Series Tobacco Packaging Series	• Folding cigarette • Adhesive labels • Food packing • coated surfaces(UV and other varnishes).	• Ideal on small and medium-scale motifs • Very High gloss • High production speed • Outstanding adhesive • Excellent edge definition without dust	
OP Series Over-printable Series	Special formulation for printing after foil.	• Ideal on small and medium-scale motifs • High gloss • Good coverage • Outstanding adhesive	
CG Series Cigar filter Series	Pecial formulation for folding cigarette and delicate foil in • Cigarette filters • Coated surfaces(UV and other varnishes).	• Delicate motifs optimally • High production speed • Outstanding adhesive • High gloss • Excellent edge definition without dust	

UPG MAT Product Series - Cold Foil

Series	Application	Characteristics:	
CF Series Narrow Web Cold Series	• Narrow PE, PP labels • Coated paper and surface • Impermeable surface, taking into account large area and fine line	• Ideal for fine to large and delicate motifs • Printable after foil • High production speed • Good adhesive properties on most inks • Metallic luster	
CS Series Sheet-fed cold Series	• Senior formulation for luxury cosmetics packing and folding cigarette. • Also widely used in poster printing, food and wine packing (Coating paper, Smooth surface)	• Printable after foil • High production speed • Good adhesive properties on most inks • Metallic luster • Excellent edge definition without dust	
CFS Series Screen printing cold Series	• Special formulation for gift package, greeting cards. • (Coating paper, Smooth surface)	• Ideal for fine to large and delicate motifs • Printable after foil • Excellent edge definition without dust • UV Curing effect after foil
